

# General Architectural Services

Carter Architects, Inc. offers complete architectural, planning and interiors services and has extensive experience with new construction, remodeling, expansions and conversions of several project types. Being a relationship-driven firm, we provide exceptional client service through active participation by firm principals in all phases of project delivery resulting in experiences that meet the client's objective, schedule and budget.

Our firm's strong design and technical talents enable us to satisfy a variety of complex issues with each new project. While we strive to capture our client's vision and translate that into inspirational building design, we are also cognizant of our duty as architects to plan and design facilities that operate efficiently and without harm to the environment.

## What Our Clients Say About Us

*"Mark helps us respond promptly to have the best chance to close the deal."*

*"Our firm receives invaluable architectural services from Mark. To provide an exceptional customer experience to our clients, we provide space planning services to ensure any given space shown will exactly fit the customer's needs and desires. In our competitive and fast-paced industry, Mark helps us respond promptly to have the best chance to close the deal."*

**Mary Caldwell**, Vice President Office Division, The Caldwell Companies

## The Value of a Strong Partnership

Carter Architects believes in the value of building strong relationships with clients. We are more interested in forging mutual trusts than earning the most short-term benefits. Many of our clients today have been with us for years, and we are confident the new partnerships we make today will be the same.

## How Can We Serve You?

We are always here to assist you with architectural services. Please contact us at **281-955-0800** to discuss the design of your new project or space planning for an existing facility.
